# COMMENCEMENT

May 7 and 8, 2010

Utah State University is one of the nation's premier student-centered land-grant and space-grant universities. We foster the principle that academics come first; we cultivate diversity of thought and culture; and we serve the public through learning, discovery, and engagement.

Faculty Assistance Center for Teaching and Information Technology will be producing a DVD of the 2010 Commencement Ceremony for \$15.00 including shipping/handling. Call 435-797-0525 to purchase. Please allow 2-3 weeks for delivery.

An archive of today's commencement ceremony will be available online at [www.usu.edu/provost/commencement](http://www.usu.edu/provost/commencement).

# UTAH STATE UNIVERSITY'S CEREMONIAL MACE

The top of the mace depicts a flame of crystal tinted with Aggie blue and modeled after the "lamp of learning," the classical symbol of knowledge and freedom. Imbedded within it is a brushed copper disk emblazoned with the University's seal.

The copper bezel below this crystal has 13 sunstones set into it. These symbolize the 13 presidents who guided the institution through its first century.

The white oak shaft comes from wood that was originally part of the banisters of Old Main and rescued from the building after the fire of 1983.

The base consists of limestone provided by the Church of Jesus Christ of Latter-day Saints and taken from the same quarry that was used to build the Logan Temple.

Thus, the mace represents the essence of our land-grant institution: seated in the bedrock of our community, striving and growing ever higher, crowned by the light of learning.

## *A Brief History of Maces*

Maces have long been part of academic heraldry, though their function was not always ceremonial. Originally weapons of war, maces are featured often in ancient Egyptian art where kings are shown ritually smiting their foes. This original function has not been entirely lost. Campus officials in the Middle Ages more than once kept students in line by employing their university's mace

in a manner recalling its primitive function. Even in the modern age, it is not unknown for a university mace to be used in this way. For instance, during the commencement ceremonies at Cornell in 1973, when a professor of medieval studies who was carrying the university's mace in a procession was confronted by protesters, he wielded his academic training and the mace in its original fashion.

But university maces today are, for the most part, treated as decorative emblems symbolizing the institution's authority. Seen most often at commencement and other solemn occasions, they remind those in attendance of the deep traditions inherent in a student's journey through university studies. Like the word for the ceremony itself, "commencement," — which admonishes its participants to remember that this is a celebration of beginnings, not endings — the mace turns the eye forward to the life to come by recalling the rich academic heritage of higher learning and the promise of attainment that comes through education and self-betterment. Our mace, thus, combines elements of both the old and the new, traditional features like gems and stone enhanced with modern designs such as arcs of faceted crystal. Both an impressive work of art and a hallmark of the university's history, this mace brings to light everything that is best about Utah State University.

# ACADEMIC HERALDRY

The history of academic heraldry reaches back into the early days of the university. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University of Coimbra wear gowns. In England, in the fourteenth century, the statutes of certain college forbade "excess in apparel" and prescribed the wearing of a long gown, necessary, no doubt, for warmth in the unheated buildings frequented by medieval scholars. Hoods were used to cover the head until replaced by the skull cap and later academic caps. Both Cambridge and Oxford have made academic dress a matter of university control down to the most minor detail; and in Oxford during the seventeenth century any tailor who changed the authorized design "even by a nail's breadth" was punished by the vice-chancellor of the university. When American colleges and universities decided to adopt some suitable system of academic apparel, it seemed best to agree on one that all might follow. Accordingly, there was held on May 16, 1895, at Columbia University, a conference of representatives of the boards of various interested institutions. From that meeting came a code of academic dress for the colleges and universities of the United States, which most institutions of higher learning have adopted.

**Gowns** The academic gown for the bachelor's degree has pointed sleeves and is designed to be worn closed. The gown for the master's degree has an oblong sleeve, open at the wrist.

The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. It is designed this way so that it can be worn open or closed. The gown for the doctoral degree has bell-shaped sleeves and may be worn open or closed.

**Colors** For all academic purposes, including trimmings of doctoral gowns, edging of hoods, and tassels of caps, the colors associated with the different academic disciplines are as follows:

Agriculture, *Maize*  
Business, *Drab*  
Education and Human  
Services, *Light Blue*  
Engineering, *Orange*  
Humanities, Arts and  
Social Sciences, *White*  
Natural Resources, *Russet*  
Science, *Gold-Yellow*  
School of Graduate Studies, *Black*

The white ribbon with the Greek key on the robe of a graduate identifies an inductee into Phi Kappa Phi, the National Scholastic Society. Those wearing gray collars and a medallion are Mortar Board Senior Honor Society members. A gold braided cord draped over the cowl distinguishes a graduate of Honors.

**Hoods** Academic hoods are worn by recipients of advanced degrees. The master's degree hoods are three-and-one-half feet in length and are lined with the official color or colors of

the college or university conferring the degree, which at Utah State University are navy blue and white, displayed in a heraldic chevron. The doctoral hood consists of a larger and longer assemblage of institutional color draped over the recipient's shoulders and falling well down the back. The binding or edging of the hoods is of velvet or velveteen, three inches wide for the master's degree and five inches wide for the doctoral degree.

**Caps** Academic caps come in two forms: the traditional mortarboard (from Oxford) or square cap; and a soft cap that resembles an oversized beret (from Cambridge). The mortarboard used by Utah State University is worn with a tassel. Black tassels designate the graduate's major field of learning, and gold tassels indicate doctors and the governing officials of institutions.

**Academic Procession** The commencement procession originates at the University Quad and the line of march proceeds to the Dee Glen Smith Spectrum. The procession is composed of three divisions: (1) color guard, University President, Regents and the Board of Trustees, administrative officers, and special guests; (2) the faculty; and (3) candidates for degrees. The procession stops at the tunnel entrance to the Spectrum, the first two divisions dividing so that the candidates for graduation pass between them and enter the hall first.

## A MESSAGE FROM PRESIDENT STAN L. ALBRECHT

Congratulations, graduates. Note that I didn't use the term "students." Instead, for the first time with many of you, I am honored to address you as graduates.

Please keep in mind, however, that I am not relieving you so quickly of your duty as a student. There is much still to learn in this world, as you well know. There is much also to teach, and it is with great hope that I wish you well on your travels forward as you bring what you've learned here out to the world.

These commencement ceremonies are, for me, an affirmation of human potential, an affirmation of hope for communities everywhere. You sit in this building today, ready to take flight, ready to soar to new heights. Well, I take flight with you. Utah State University takes flight with you as your accomplishments grow.

We have taught you the details of your chosen professions. You signed up for those classes (whether you wanted some of them or not!). But we hope we've also instilled in you other ideals, some of them "educational." I hope we've fanned the fires of caring, of giving, of taking responsibility. I hope we've cultivated passion, adventure, understanding. You are a different person today than you were four years ago when you first trudged up Old Main hill. And I will take a sure bet and say you are a better person than you were those few short years ago.

Graduation is a time – for me and for all of us in the university community – to reflect with pride on what we have chosen to do with our own lives. You are that reflection, and today I say thank you for what you have given us, what you have given yourselves, and what I sense that you will give to society.

We will follow your progress with great expectations, and we will not forget you. Please keep in touch.

*Stan L. Albrecht*

## Commencement Speaker and Honorary Degree DANNY L. GLOVER

Danny L. Glover has been a commanding presence on screen, stage and television for more than 25 years. His film credits range from the blockbuster *Lethal Weapon* franchise to the cult classic *Saw* to smaller independent features, some of which he also produced. He has also had success in the television arena, with a recurring role on the hit NBC drama series *ER* and with a role on the popular ABC drama *Brothers and Sisters*.

Most recently, Mr. Glover can be seen in the role of the president in the action thriller *2012*. He also recently completed work on *Death at a Funeral*, *Honeydripper*, and *Be Kind, Rewind*. He appeared in the critically-acclaimed feature *Dreamgirls* and *Shooter*. Mr. Glover is currently in the process of developing a film about USU football player Lionel Aldridge, who had a successful career in the National Football League but also struggled with mental illness.

A native of San Francisco, California, Mr. Glover earned a degree in economics from San Francisco State University and also trained at the Black Actors' Workshop of the American Conservatory Theater. He started his acting career on the stage, appearing in numerous plays, including *The Island* and *Sizwe Banzi is Dead*. However, it was Mr. Glover's Broadway debut in *Master Harold ... and the Boys* that first brought him national recognition and landed him his first leading role in 1984's Oscar-nominated Best Picture *Places in the Heart*. The following year, Mr. Glover starred in two more Best Picture nominees: *Witness* and *The Color Purple*.

In 1987, Mr. Glover appeared in the first *Lethal Weapon* film, earning an NAACP Image Award for Outstanding Lead Actor. He went on to star in three hugely successful *Lethal Weapon* sequels. Mr. Glover's many film credits also include *The Royal Tenenbaums*; *Beloved*, for which he won an Image Award for Best Actor; *The Rainmaker*; *Angels in the Outfield*; *Grand Canyon*; and *Silverado*.

On the small screen, Mr. Glover won an Image Award and a Cable ACE Award and earned an Emmy nomination for his performance in the title role of the HBO movie *Mandela*. He has received three more Emmy nominations for his work in the acclaimed miniseries *Lonesome Dove*, *Fallen Angels*, and the telefilm *Freedom Song*, the last of which Mr. Glover also executive produced and for which he garnered another Image Award, as well as a Screen Actors Guild Award nomination.

Mr. Glover has also gained respect for his wide-reaching community activism and philanthropic efforts. He currently serves as a UNICEF Ambassador and has received numerous prestigious honors including the 2002 Marian Anderson Award, the 2003 NAACP Chairman's Award, the 2004 BET Lifetime Achievement Award and the 2009 CBCF Phoenix Award. He is also Chairman of the Board of TransAfrica Forum, a non-profit global justice organization whose focus is on fostering a closer alliance amongst and address issues facing African Americans and peoples in Africa, the Caribbean and Latin America.

For his life-long commitment to his profession and dedication to public service, Utah State University is proud to bestow upon Danny L. Glover the honorary degree, Doctor of Humane Letters.

Honorary Degree  
**DONALD R. QUAYLE**

Donald R. Quayle started his career in public broadcasting at Utah State University where, as an undergraduate, he founded the first educational radio station in the state of Utah. He completed his undergraduate work in 1952 and received his Master's degree in theater from Utah State University before moving on to Ohio State University for graduate work. While there, he worked as a booth announcer manager for WOSU Television and developed an interest in the concept of interconnection and networking for educational radio and television. In 1960, Mr. Quayle accepted a position as general manager at WGBH radio. From 1962 to 1964, he was employed by National Educational Television (NET), first as director of the Educational Radio Network, then as a field services associate in the station relations department.

Mr. Quayle returned to Boston as executive director of the Eastern Educational Network (EEN), where he interconnected stations from Syracuse, Albany, Boston, New York, Philadelphia, and Washington, DC. He left EEN in 1968 to function as a networking consultant for the Corporation for Public Broadcasting (CPB) and helped establish a television interconnection system, which opened in 1969. In 1970, Mr. Quayle went back to radio as the first president of National Public Radio (NPR). Three years later, in 1973, he rejoined CPB as Senior Vice President for Broadcasting. Mr. Quayle created CPB's education department in addition to being involved in all aspects of programming. Subsequently, Mr. Quayle consulted for WETA, Public Broadcasting Service (PBS), and various stations around the country. In 1979, he became Vice President for Administration at WETA, where he remained until his retirement in 1989.

Throughout his career, Mr. Quayle advocated interconnection and networking among both television and radio stations. In addition, he was an outspoken advocate of decentralization and increasing the power of individual stations to make programming decisions.

For his life-long commitment to the advancement and quality of public radio, Utah State University is proud to bestow upon Donald R. Quayle the honorary degree, Doctor of Humane Letters.

Honorary Degree  
**SCOTT R. SIMPLOT**

Scott R. Simplot is an outstanding citizen, business leader and public servant. Chairman of the board of the J. R. Simplot Company for over a decade, Mr. Simplot has guided all company activities and has been a liaison between the board and senior executive management. The J. R. Simplot Company, with more than 13,000 employees, is a principal driver of the Idaho economy. It is one basis of the state's reputation for world-class potatoes, and the company has also diversified into vegetables, fertilizers, cattle, turf grass, and processing and distribution systems. Under his leadership, the J. R. Simplot Company established its own research unit to advance the cultivation and processing of potatoes and to improve turf grasses, cattle breeding and cattle nutrition.

Mr. Simplot is continually looking for ways to conquer agriculture's frontiers. He has been an active partner in Utah State University's internationally renowned research program in the area of embryo cloning, including the production of three cloned mules in 2005. Mr. Simplot is at the forefront of cloned animal production – another innovative way that he has combined the advances in agriculture and science with business savvy and entrepreneurial spirit.

Mr. Simplot is a 1968 University of Idaho alumnus and MBA holder from the Wharton School at the University of Pennsylvania. He emphasizes the company objectives of continual learning and problem solving through the application of science and technology. He also remains committed to "work that benefits humanity." His investments in cutting-edge industries have brought opportunities to Idaho, the nation and the world. He was an early advocate of using computers and information technology to change the business world. He was a founding member of the board of directors for Micron Technology, which has become Idaho's largest private employer. Simplot's community commitment extends to volunteer efforts. He has helped such public groups as the Chamber of Commerce and the Salvation Army; his most recent involvement is as chair of the expansion of the Idaho Food Bank, to help alleviate hunger across the state.

For his life-long commitment and dedication to advancing agriculture through scientific knowledge, Utah State University is proud to bestow upon Scott R. Simplot the honorary degree, Doctor of Agriculture.

Honorary Degree  
**PAULA M. SWANER**

Dr. Paula M. Swaner has received several degrees including a bachelor of arts and a master of arts in English literature, as well as a master's of science in educational psychology and a Ph.D. in clinical psychology, all from the University of Utah. She has also received a master of arts from Pacific Graduate Institute in the Mythological Studies Program and is in the dissertation phase of a Ph.D. program from Pacifica University. In addition to her degrees, Dr. Swaner has certifications in object relations theory and therapy from the School of Psychiatry and Psychoanalysis, as well as from the Academy for Guided Imagery.

Dr. Swaner began her mental health career as a volunteer in 1963 at the original unit of Salt Lake City Mental Health Center. She later worked at other units of Salt Lake County Mental Health. She also worked at the children's division of Granite Mental Health. She designed an educational program for school phobic children for the Utah State Board of Education. She has been in private practice since 1984 providing individual and couples therapy as well as supervision for many Utah psychotherapists.

Dr. Swaner introduced Utah Psychotherapists to training opportunities through IPI via a videoconference series, which began in 1997. The relationship with IPI has evolved to include a master's degree program at Westminster College as well as a wealth of special and ongoing educational opportunities. She continues to serve on the faculty at the IPI center in Bethesda, Maryland and as emeritus director of the IPI satellite program in Utah. Dr. Swaner has organized Perspectives on Prejudice, a two-year educational program with the Utah Psychological Association's Task Force on Discrimination, as well as the International Conference on Prejudice.

Dr. Swaner and her family are responsible for developing the Swaner Nature Preserve at Kimball Junction in Summit County. Founded in 1993, the Preserve encompasses over 1200 acres of critical habitat, including high altitude wet meadow and stream habitat, providing home to numerous animal and plant species. Swaner Nature Preserve provides Snyderville Basin with a breathtaking view shed, groundwater recharge, and avenue for environmental education. As a land trust, the land will be preserved in perpetuity. The mission statement of the Preserve is "to preserve the land and the human connection to the natural landscape, to educate the local and broader communities about the value of nature, and to nurture both the ecosystem and the people connected with it."

For her life-long commitment to the mental health community and the preservation of the environment, Utah State University is proud to bestow upon Paula M. Swaner the honorary degree, Doctor of Humane Letters.

## Honorary Degree DOMINIC A. WELCH

Dominic A. Welch has been an avid newspaper reader throughout his life, beginning as a child in Price, Utah. There he worked at the neighborhood shoeshine stand, where he had the opportunity to read the Salt Lake Tribune.

Mr. Welch's career started after his graduation from Utah State University in 1957, when he joined Wells Baxter and Miller, a major Utah accounting firm that later merged with Haskins & Sells. There, Mr. Welch's duties included auditing the Salt Lake Tribune. He later joined the Kearns-Tribune Corporation as controller in 1965. He became the general manager and treasurer in 1970 and was named the corporate president in 1983. He also became the director and treasurer of the Newspaper Agency Corporation in 1976.

Mr. Welch was named the publisher of the Salt Lake Tribune in February 1994 and at that time was president of the Newspaper Agency Corporation, overseeing the advertising, printing, and distribution of the Salt Lake Tribune and the Deseret News. He left the board of the NAC in February 2001 and retired from the Tribune in August 2002 when it was taken over by its owner, MediaNews Group Inc. At the time of his appointment at the Tribune, Mr. Welch was also the president of the Kearns-Tribune Corporation, whose subsidiaries then owned the Lewiston Morning Tribune (Lewiston, Idaho), The Daily News (Moscow, Idaho, and Pullman, Washington), the Daily Sparks Tribune (suburban Reno, Nevada — Welch later purchased this paper after he left the Tribune), and The Gazette (a weekly in Colfax, Washington).

Mr. Welch was given the Distinguished Service Award by Utah State University in 1991. That year he also received the Freedom of Enterprise Award by the Utah Association of Certified Public Accountants, recognizing him as a Utah business leader who has made unusual and extraordinary contributions to the business world and community. In 1993, he was awarded an Honorary Doctor of Humane Letters degree by the College of Eastern Utah. During the 1990s, Mr. Welch's dual position with the Salt Lake Tribune and the Newspaper Agency Corporation made him the most powerful person in the state from a communications standpoint. Mr. Welch has been listed in several editions of Who's Who in the West, Who's Who in Finance and Industry, and Who's Who in America.

For his life-long commitment to the integrity and quality of print journalism, Utah State University is proud to bestow upon Dominic A. Welch the honorary degree, Doctor of Humane Letters.

D. Wynne Thorne Career Research Award  
**STEPHEN I. SCHEINER**

Throughout his career as a professor in the Department of Chemistry and Biochemistry, Steve Scheiner has studied unusually broad topics in the area of computational chemistry and has made valuable contributions to the discipline, as well as to Utah State University. His work has made him the world's expert on hydrogen bonding, the molecular phenomena that accounts for the double helix of DNA, the activity of enzymes, and even life itself. For a long time, chemists believed that hydrogen-bonded interactions could be identified by a distinctive "red-shift" of infrared light.

Dr. Scheiner's research, however, characterized a unique kind of hydrogen bond contact that emitted a "blue-shift." His research further identified the origin of the phenomenon and focused on a previously overlooked hydrogen bond interaction, now known as the CH $\cdots$ O interaction. Many have called Dr. Scheiner's book "Hydrogen Bonding: A Theoretical Perspective" a "Bible" for theoretical studies in this area.

Dr. Scheiner received his doctorate in chemical physics from Harvard University in 1976. He held positions at The Ohio State University and Southern Illinois University Carbondale, before coming to Utah State in 2000. At USU, Dr. Scheiner served as the head of the Chemistry and Biochemistry Department from 2000 to 2009 while maintaining his active research program. Dr. Scheiner's research publications are prolific, with more than 250 peer-reviewed papers, ranging in disciplines from development of theoretical methodology to applications of quantum chemistry to many different areas of science. Just as important, though, is the rate at which other chemists cite his work in their own papers, a rate that rivals leaders in the field at MIT, Stanford, Berkeley and Harvard. Dr. Scheiner has been awarded more than \$3.7 million in research grants, an unusually high amount for computational chemistry. His funders include the National Institutes of Health, the National Science Foundation, the Binational Science Foundation, Army Research Office and IBM. Throughout his research career, Dr. Scheiner has mentored numerous undergraduate and high school students, 12 doctoral students and 28 post docs. Dr. Scheiner's productive and innovative discoveries in the field of computational chemistry, as well as his continued service to his department and students, set him apart as an exemplary researcher.

Eldon J. Gardner Teaching Award  
**JAMES S. CANGELOSI**

As a professor in the Department of Mathematics and Statistics, James Cangelosi engages students in creative mathematical activities that help them understand complex problems and that motivate the students to solve them. For example, to enable them to break a code, Dr. Cangelosi challenges students to invent an algorithm for solving a class of linear Diophantine equations and prove Fermat's Little Theorem. He employs instructional strategies that are clearly supported by his own research. He uses inquiry lessons that stimulate students to reason inductively to construct concepts and discover relationships for themselves. He also uses direct instructional lessons so students gain knowledge of conventions and develop algorithmic skills. Dr. Cangelosi uses comprehension and communication lessons

so students take advantage of the special features of the language of mathematics, and he employs inquiry lessons that stimulate students to reason deductively to devise solutions to problems. Finally, he uses various inventive tools to foster creativity with mathematics.

Dr. Cangelosi believes that such strategies are ineffectual, however, unless a classroom climate is established in which students feel free to experiment, make mistakes, interact with one another, raise questions, express their conjectures and have them publicly analyzed, and expose their thinking processes without fear that they will be embarrassed, have their self-worth judged or jeopardize their grades. He establishes that kind of atmosphere by consistently employing non-judgmental descriptive language, using active listening techniques, practicing assertive behavior that is neither passive nor hostile, and engaging students in true dialogues instead of the exchanges that typically occur between professors and their students in which the professor initiates, students respond and the professor evaluates the response.

Dr. Cangelosi's record of publications, as well as his research and service projects, reflects his concern for narrowing the gap between typical instructional practices and those supported by sound research.

## E. G. Peterson Extension Award

### NEDRA K. CHRISTENSEN

Nedra K. Christensen is a Professor and Nutrition Extension Specialist in the Department of Nutrition, Dietetics and Food Sciences. She has established a national reputation for outstanding Extension programming that improves the quality of life for individuals with developmental disabilities and chronic diseases including diabetes, cystic fibrosis and cardiovascular disease.

Dr. Christensen also directs clinical internships for dietetics students in Salt Lake City and mentors graduate students. She has received college and national recognition for excellence in teaching from the College of Agriculture and the American Dietetic Association. She was recently selected as the 2009 Graduate Mentor for the College of Agriculture. Finally, she is an accomplished

researcher and has received more than \$300,000 in individual grants and collaborated in well over \$1 million in applied research grants.

Dr. Christensen merges research and formal teaching to develop the strongest possible programs. Her project to develop diabetes nutrition programs in English and Spanish has improved control of diabetes in Utah participants throughout the state, having critical importance in rural areas of Utah where limited healthcare is available. She is very accomplished at involving students in research and honors projects. Her undergraduate students have been awarded at the Utah Dietetic Association meetings, have presented nationally and have published in the peer reviewed literature. Dr. Christensen also developed a program for Utah children with cystic fibrosis. This program allows for a "Parent to Parent" support group to meet three times a year at Primary Children's Medical Center where they receive information on health issues and emerging clinical care in treating cystic fibrosis. The program provides the most up-to-date information on disease treatment, and it fosters the friendships and networks that families need to deal with this debilitating disease. Dr. Christensen also contributes great professional and volunteer service including leadership roles with the Utah Food Bank board and service on boards for many chronic diseases. She has been the director of nutrition education and manages the foodservice for the children's diabetes camp affiliated with Vanderbilt University since 1981, annually giving up vacation to directly participate in the camps. Her leadership and advisory roles in professional and community organizations reflect very positively on the department and Utah State University Cooperative Extension.

## Outstanding Graduate Mentor Award

### JAMES P. EVANS

James P. Evans is a professor of Geology. One of his finest attributes is his ability to pass on his love for geology to his students. Dr. Evans spends much of his time in the field with his students, helping them get oriented to their field area, encouraging them to make interpretations and then guiding them to test those interpretations. Dr. Evans firmly directs his students to do their best consistently, while maintaining a constantly positive attitude. Dr. Evans also has a sincere interest in the well-being of his students outside of academics. His influence in the geology community enables him to provide contacts for his students as they seek employment in their areas of expertise. His active research programs and grants provide his students with numerous opportunities to pursue and publish their research findings. As a teacher, Dr. Evans makes every effort to share the sheer enjoyment of discovery with his students, allowing them to follow their own path of logic to an ultimate conclusion. He is able to teach and research geologic problems while providing students with an understanding of their real-world relevance. His mentoring does not end at graduation. His influence on his students carries over to their professional careers, to the point that many have sought him out years later to mentor them as they return for a doctorate.

## TEACHING EXCELLENCE AWARDS

Through an extensive selection process involving both students and faculty in the various academic colleges, seven members of the faculty have been designated for special recognition for excellence in teaching representing the seven colleges of the University: Agriculture; Jon M. Huntsman School of Business; Emma Eccles Jones College Education and Human Services; Engineering; Humanities, Arts and Social Sciences; Natural Resources; and Science. From among the seven, The Eldon J. Gardner Teaching Award recipient is chosen; the six remaining follow:

### COLLEGE OF AGRICULTURE

*Julie P. Wheeler*

Julie P. Wheeler is a senior lecturer in Family and Consumer Sciences Education. Her career has had various facets, but all have involved teaching: motherhood, curriculum development, adult education and now teaching at Utah State University.

She has been working with Family and Consumer Sciences Education for the past 13 years. This has included being an advisor, teaching the introductory class, methods classes, clinicals, clothing classes and supervising student teachers. All of these classes have been challenging and rewarding. No two classes have ever been taught using the same syllabus. New information and teaching strategies are always included in every class.

An additional role is Dr. Wheeler's involvement in the graduate program for Family and Consumer Sciences Educators and Extension Agents. This is a distance education program that is broadcast throughout Utah. Technology is changing daily and this program continues to grow and serve people who cannot come to campus to attend classes.

Although she has presented at national and state conferences, her favorite audience is still her small classes taught in the historic Family Life Building at USU. Regardless of the course she is teaching, her goal is to motivate students to see how each concept relates to the individual and then improve their lives by implementing the learning that has taken place. Her teaching theme is a play on Shakespeare: "All the world's a classroom," she says. "We learn from everything we do — not just when we are taking classes. Learning to apply what we learn to make our lives successful should be the goal for each of us."

## JON M. HUNTSMAN SCHOOL OF BUSINESS

*Jack W. Peterson*

Jack W. Peterson joined the Utah State University faculty in 1984. He played an integral part in the accreditation process for the School of Accountancy and was a member of the faculty when the School of Accountancy received the USU Faculty Award for Teaching in 2004. In addition, Mr. Peterson has taken the leadership role in designing the accounting classes for delivery in the off-site economics degree program in China.

Mr. Peterson is now the School of Accountancy Mission Committee chairman, leading an exhaustive and detailed review and reconsideration of the school's mission and vision. As a member of the Ethics Committee for the Jon M. Huntsman School of Business, Mr. Peterson contributes significantly, teaching his students the importance of moral courage. He recently chaired the committee to identify attributes appropriate for advancement for non-tenured lecturer positions in the School of Accountancy. He has provided distance education to various sites throughout Utah and surrounding areas and maintains his investment securities licenses as a registered representative, financial advisor and insurance agent in Utah.

Mr. Peterson has taught classes in financial accounting principles, managerial accounting principles, intermediate accounting, both graduate and undergraduate financial auditing, strategic cost management, insurance and risk management and auditing for the USU MBA Alliance program on the campus of Utah Valley University.

Mr. Peterson brings to the classroom a diverse wealth of knowledge from his career of 29 years as a certified public accountant. He was the managing partner of the CPA firm Peterson and Allred for most of those years. Mr. Peterson is an active member of the American Institute of Certified Public Accountants and the Utah Association of Certified Public Accountants. He has also participated in several non-profit organizations such as the Logan City Light and Power Advisory Board for 15 years and the original organizing committee of the Utah Festival Opera company.

## EMMA ECCLES JONES COLLEGE OF EDUCATION AND HUMAN SERVICES

*Elizabeth B. Fauth*

Elizabeth B. Fauth is a research assistant professor in the Department of Family, Consumer, and Human Development. She teaches undergraduate and graduate classes in lifespan development, adult development and aging, social and family gerontology and research methods. She regularly teaches classes in the face-to-face, interactive broadcast, and online formats. Dr. Fauth also is a coordinator of the Gerontology Certificate Program at Utah State University. This is an interdisciplinary certificate awarded to students who have completed specific additional coursework in gerontology and hands-on experience working with older adults. She advises students throughout the certificate process and supervises their final integrative paper. She has served on the committees of several completed and current master's and Ph.D. students in her department and has contributed as a second author on a scholarly, peer-reviewed publication and conference presentation on teaching methods. She received the Teacher of the Year award from her department in 2009.

Letters of support submitted by Dr. Fauth's peers, department head and students note her passion and contagious enthusiasm in teaching about the needs of older adults and their families, and for her integration of "real-life" experiences into human development, aging and research methods. She is noted for her approachability among students and for her use of humor in her lectures. Students who said they were previously uninterested in the aging process have described going through a transformative experience in her class, where they find a newfound interest in their own aging process, as well as working with or on behalf of older adults in the community. In addition to her teaching activities, Dr. Fauth is the primary investigator on a research grant funded by the National Institute of Health.

## COLLEGE OF ENGINEERING

### *David K. Geller*

David K. Geller was selected by students in the Department of Mechanical and Aerospace Engineering to receive the Teaching Excellence Award. Dr. Geller consistently maintains a high standard in terms of interacting with students and taking the time to give them personal and professional counsel that contributes significantly to their success as students working toward their bachelor's and graduate degrees. Without question he has proven to be an outstanding professor in and out of the classroom.

Dr. Geller regularly teaches four MAE courses, one of which is arguably the toughest required course in the MAE curriculum, Advanced Dynamics, a class with an enrollment of about 100 students. Students correctly perceive that he both knows what he is talking about and, as important, that he is interested in their success as students and as individuals.

Dr. Geller organizes and conducts discussion groups, tutoring sessions and advising sessions for undergraduate students and graduate students outside of class time. He does not differentiate between undergraduate and graduate students in allocating his time to help a student. He is often seen after hours in the MAE conference room conducting extra help sessions for his students.

His passion for teaching and helping students is self-evident in his daily work patterns. Dr. Geller has earned the respect of his peers and is a highly valued asset to the department and college.

## COLLEGE OF HUMANITIES, ARTS AND SOCIAL SCIENCES

### *Matthew L. Sanders*

Matthew L. Sanders is an assistant professor of Speech Communication and teaches courses in organizational communication, interpersonal communication, leadership, and organizations and social change. He researches the ways in which nonprofit organizations and social entrepreneurs evoke and resist business discourses in the pursuit of social justice goals. He also researches the role that values, such as honesty and kindness, play in organizational leadership as well as a number of issues related to student empowerment in higher education. Dr. Sanders works with a number of undergraduate research assistants each semester and is currently serving as the faculty advisor for the Speech Communication Honors Society, Lambda Pi Eta.

## COLLEGE OF NATURAL RESOURCES

### *Phaedra Budy*

Phaedra Budy is an associate professor in the Department of Watershed Sciences and the Assistant Unit Leader in Fisheries for the USGS Utah Cooperative Fish and Wildlife Unit.

Dr. Budy's students appreciate that she embraces individuality among students, emphasizes the ongoing pursuit of knowledge, tries to lead by example and always presses upon students the implications of their daily actions to the state of the real world. Dr. Budy operates under the premise that all students are individual humans with different strengths and weaknesses; and, accordingly, she understands that different strategies of teaching will engage different individuals.

Dr. Budy has been teaching fish diversity and conservation, both the lecture and laboratory sections, since 2008. In the lecture component of her class, she combines traditional lecture, discussion and on-the-board problem solving with unique and diverse communication assignments. For example, each year students participate in poster sessions as a novel communication assignment. Students learn how to research a topic, glean the most important components and present that information in an educational written and visual format. Dr. Budy chose "Hot Fish Sex" as the theme in 2009 because she suspected students would like a racy topic, and she wanted them to be truly engaged in their selected subjects. The students demonstrated incredible enthusiasm for the assignment.

Dr. Budy's students noted that she was a phenomenally passionate teacher and that they believe she truly loves teaching. They noted that she demands the best of her students and teaches them how to, what she calls, "walk intelligently" versus "crawl." Students appreciate the skills they learn in addition to the information and skills that will contribute to their success in their academic and professional careers, as well as their personal lives.

## DEPARTMENT TEACHING EXCELLENCE AWARD

### DEPARTMENT OF MECHANICAL AND AEROSPACE ENGINEERING

Creating extraordinary learning environments and innovative opportunities for students to experience the rigor of real-world engineering challenges are trademarks of the Department of Mechanical and Aerospace Engineering. Students have benefitted for years from the dedication to teaching excellence displayed by the faculty in the Department of Mechanical and Aerospace Engineering. This department excels in preparing engineering students for an industry unforgiving in the need for exacting standards and one that, at the same time, demands innovation and invention. The many first-place awards and top rankings earned by students from the Mechanical and Aerospace Department in regional and national engineering competitions are a testament to the high standards that this faculty place on their teaching. Many faculty in the Department of Mechanical and Aerospace Engineering have earned honors as outstanding student advisors and outstanding teachers, reflecting this department's pursuit of instructional improvement through a constant program of assessment and self evaluation. Clearly, the evidence overwhelmingly supports the fact that this department treats its responsibility for training the next generation of engineers with profound sincerity and unwavering focus.

# ALUMNI ASSOCIATION LETTER

Dear Graduate:

Congratulations on your graduation from Utah State University. The attainment of your degree has come at a price and represents many days, hours, and years of hard work and sacrifice.

The formal awarding of degrees takes place in a ceremony called "commencement" – which means "beginning." Why do we call the end of one's formal schooling the "beginning"? This is not the end of your learning. Our education must never stop. This also marks the beginning of a new phase in your life – the beginning of a new career, the opportunity to apply what you have learned, or perhaps the beginning of an advanced degree – all new beginnings.

I would ask that this day be the beginning, as well, of your lifelong connection to Utah State University – that it be the commencement of a commitment to a lifetime of continued association with USU.

The purpose of the Utah State University Alumni Association is "to promote the interests and welfare of Utah

State University, its alumni, students, staff and friends of the University." I invite you to take full advantage of the services and benefits the Alumni Association has to offer. Some of the benefits include: Alumni networking, USU Magazine, an online newsletter, Aggie Alumni Chapters and events, travel opportunities for Alumni, insurance discounts, credit card reward programs, and travel and recreation discounts. Please visit our web site at [www.usu.edu/alumni](http://www.usu.edu/alumni), give us a call at 1-800-291-ALUM, or stop by the David B. Haight Alumni Center anytime!

In the 1993 commencement remarks given by then U.S. Senator and Astronaut Jake Garn he said, "Give back in gratitude to the system which has given you so much." That simple statement moved me to action to become a more engaged alumnus. We all have much to give, our time, talents or treasure. Please continue your involvement with Utah State University and find simple ways in which to "give back" to your alma mater. Your support will ensure that we can continue to live by the motto of "Honoring Tradition, Securing our Future."

Good luck and much success.

Proud to be an Aggie
